<b>Mission Statement:</b>	To provide excellent parks, recreation and cultural opportunities which enhance the quality of life within the San Bernardino community. We create community through people, parks and programs.
---------------------------	--

***About The Department***

---

The Parks, Recreation and Community Services Department provides a diversified system of parks and open spaces, recreation centers, programs and community services to meet social and leisure needs and enhance the quality of life for all City residents. The Administration Division manages personnel, finance and community services. The Parks Division maintains parks facilities street trees and conducts landscape plan checks and inspections services. The Recreation Division provides community, human and social services as well as recreation programs for all ages.

The Department provides diversified programming and maintenance activities at over forty (40) park facilities totaling 550 acres. The Department also oversees the landscape maintenance of the Carousel Mall, Public libraries, City Hall, Animal Shelter and various landscape areas such as Mt. View Avenue, Waterman Avenue and Muscupiabe Avenue, and the fountains at City Hall and the Carousel Mall.

The Parks, Recreation and Community Services Department has (ten) 10 programs covering the following service areas: Administration, Aquatics, Sports, Center for Individual Development, Parks Maintenance, City Wide Activities, Recreation and Community Programs, Senior Services, Special Events, and Outdoor Facilities.

***Top Accomplishments for FY 2009/10***

---

1. Completion of the City's Parks Master Plan process and document with initial implementation phases of improved customer service, marketing and communication for future Departmental viability.
2. Completed over \$3 million in capital improvement projects, including construction of the Nunez synthetic soccer field, Broadmoor irrigation repairs, design of La Plaza Park fencing and lighting project, design of potential Verdmont Community Center, Speicher Skate Park, Speicher Soccer Fields, Speicher Park Restroom Renovation, design of Electric Avenue Greenbelt and Historic Site, and roof replacement at Ruben Campos Community Center
3. Continued quality service delivery with in-house personnel in recreation programming and park maintenance, despite an additional \$1.8M reduction in financial resources through an aggressive pursuit of grants (Kaiser), community collaborations (UYCC) and agency partnerships (EDA).

4. Developed alternative revenue sources and maintained existing resources to fund services. Partnerships and contracts include: Lease of Delmann Heights Community Center to San Bernardino County Pre-school Services for Headstart programming, Lease of Fiscalini Field to Cal State San Bernardino Baseball program, and lease/co-operate Norton/Galaxy centers with charter school – Public Safety Academy.
5. In partnership with SBETA, secured volunteer and summer youth work support to supplement park and landscape maintenance shortfalls, while providing important job training opportunities for community youth.
6. Consistent with recommendations from the Parks Master Plan, applied for \$20 million in California State Parks Proposition 84 grant funding for critically needed capital improvement projects.
7. Promoted operational and management innovation and creativity by retaining 100% of Maintenance staff by shifting half of the work crew to Landscape Maintenance District duty, back-filling staffing with volunteers, court referrals and summer youth workers and eliminating LMD contracts. Parks Maintenance Division Staff were proposed for elimination in the February 2009 cost saving strategy and this action was taken to mitigate job loss.

#### ***Major Issues for FY 2010/11***

---

1. Given current funding challenges where neighboring cities average \$8,300 in funding per developed acre and the City of San Bernardino currently invests \$2,400 per developed acre, championing the investment in the renovation and new development of the parks system and beautification of other landscape areas in the City as a major contributor to the economic vitality and social fabric of the City.
2. According to the National Recreation and Parks Association for park maintenance, industry standards are 1 person per 10 acres, whereas San Bernardino currently averages 1 person per 60 acres.
3. Identifying a stable funding source or sources sufficient to maintain citywide operations of community centers, programs and parkland. Funding for materials and operational expenses is insufficient as many annual purchase orders are depleted prior to the end of the third quarter. Service requests have also increased as deferred maintenance becomes more prominent with fewer resources to address them thus significantly affecting departmental morale.

***Program Summary***

Program Code:	0001
Program Purpose:	To plan, administer and coordinate resources to ensure cost effectiveness and efficient provision of San Bernardino Parks, Recreation and Community Services Department facilities and programs.
Strategic Goals Addressed:	Responsive Government

***5 – Year Program Goals***

1. Continue with the organizational restructuring to optimize operational efficiencies and utilize the goals and priorities of the Master Plan to develop future staffing plans and organizational structure.
2. Continue cooperative and coordinated planning within the Department, with other City Department and with public and non-profit agencies to minimize duplication and/or competition to provide the best use of limited resources.
3. Revise the cost recovery policy and program classification system based on a cost recovery target for each program area, which may range from no cost recovery to 100%.
4. Streamline processes and create operational efficiencies by updating and implementing department policies and practices.
5. Secure “state of the art” equipment and technology and provide training to improve services and record keeping.
6. Hiring of additional support staff to assist in processing accounting, point of sale, counter operations and general administrative services.
7. Support training and professional development opportunities for employees that include conferences, seminars, cross training and memberships in trade or professional associations.
8. Update training materials so all division employees have a concise and consistent direction.
9. Effectively administer financial and personnel resources by revising and implementing departmental policies and personnel records and providing staff training on financial management and personnel management.

10. Ensure that residents view the City of San Bernardino as the provider of choice for neighborhood recreation programs, recreation facilities and parks, and rate participant satisfaction with PRCSD facilities and services at high levels.
11. Distribute positive publicity regarding neighborhood services to the media and other communication channels.
12. Conduct customer satisfaction surveys and adjust service delivery according to survey results.
13. Development of a more effective “Friends of the Parks” Agreement and sponsorship opportunities to further promote department mission.
14. Recognition is gained from local media that acknowledges the positive impact on the quality of life residents and visitors enjoy. This can be achieved by distribution of publicity regarding impact of the Department on the quality of life to the media and other communication channels. Moreover, assist the media in covering Department stories to build relationships, trust and additional positive publicity. Utilize City media, website and TV station to positively impact the audience.

***FY 2010/11 Program Objectives***

1. Foster an open work environment that empowers employees and embraces the Department’s organizational values and customer services orientation. Reward and recognize employees for their achievements.
2. Implement training materials to ensure all divisions have a clear concise and consistent outline of city policies and procedures, as well as departmental policies and procedures.
3. Develop employee work plans to implement strategies set forth in the Park Master Plan.
4. Initiate an Adopt a Park program campaign to support park development and operations

***Ongoing Program Objectives***

---

1. Ensure that all employees have the materials needed to disseminate information for all programs and programming offered by the department.
2. Ensure that all citizens know the programs and programming offered by the department through RecNet, brochures and other marketing pieces.
3. Technological updates in equipment and programs.
4. Provide support in all aspects of departmental and division responsibilities.
5. Ensure department expenditures are legal, appropriate and in accordance with budget provisions.
6. Measure citizen satisfaction with services provided by the department.
7. Establish, review and revise operating policies and procedures.
8. Implement audits tracking and record keeping of fiscal and personnel management.

Program Code:	0069
Program Purpose:	To provide access to swim play and skill development through a diversified offering of safe and enjoyable activities at City swimming pools for the participating public in order to promote healthier lifestyles, water safety awareness, relief from seasonal hot weather, and a higher quality of life for the community.
Strategic Goals Addressed:	Enhance of our Vibrant Quality of Life

***5 – Year Program Goals***

1. Create a comprehensive management strategy for maintenance of pool facilities, both short term (daily routine and preventative maintenance) and long term (capital improvement depreciation and replacement of equipment).
2. Expand program offerings to include a seasonal Junior Lifeguard Program, in-school Water Safety workshops, Lap Swim, and a City-sponsored Swim Club.
3. Hire and train a full-time Parks Maintenance Worker I (Pool Maintenance Technician) to conduct daily routine pool care and maintenance for all six pool locations.
4. Through the CIP program, develop three additional spray play parks at various sites throughout the parks system.

***FY 2010/11 Program Objectives***

1. Ensure the opening of six community pool locations: Jerry Lewis Family Swim Center, Nunez Pool, Hernandez Pool, Mill Pool, Delmann Heights Pool, and Boys & Girls Club Pool. Neighborhood pools will offer a minimum 10-week open recreational swim season, two daily swim sessions Mondays through Saturdays

from 1:00pm-3:00pm and 3:30pm-5:30pm from June 21 – August 28, 2010. The Jerry Lewis Family Swim Center will offer approximately 90 days open recreational swim, two daily swim sessions weekdays and three daily swim sessions on weekends from Memorial Day Weekend through Labor Day Weekend.

2. Provide a host of aquatics training and certification classes in Water Safety, Lifeguarding, Water Safety Instruction (Swim Instructor), and Lifeguard Instructor at a day, time, and frequency to meet the needs of the local community.
3. Continue to promote and accommodate private rentals (schools, church groups and community).
4. Provide learn-to-swim experiences for all segments of the community.
5. Maintain high quality and sanitary public swimming pool facilities resulting in zero mandated pool closures.
6. Hire, train, and retain qualified/certified lifeguard personnel to meet safety standards (approx. 50 aquatics personnel).
7. Incorporate team building activities into staff In-Service Training.
8. Improve professionalism/public image via coordinating community involvement activities, enforcing uniform standards, maintaining optimal activities scheduling, posting signage, and providing for custodial/pool maintenance work plans.

### ***Ongoing Program Objectives***

---

1. Ensure greater access to all City neighborhood swimming pools by community residents via opening facilities, maintaining core operational hours, and meeting all health and safety standards.
2. Provide safe and clean community swimming and wading pools and water spray features for health through exercise and personal enjoyment.
3. Provide professional lifeguard services at City pools to ensure as high visitation as possible in an enjoyable, safe, and customer-service oriented environment.
4. Provide swim lessons and water safety training to safeguard against drowning accidents, provide job certifications, and enhance community awareness for responsible swimming.

# Training/Certification Class Participation	76	80	70	17	75

***Performance Measure: Notes***

1. Maintenance and operations funding for aquatics activities and facilities is well below minimum public safety standards. No pool maintenance personnel are currently funded, and these tasks are being grossly neglected.
2. A Capital Improvement Program for pools and their amenities does not exist. Capital pool equipment and amenities are being operated well beyond their manufactured life expectancies.
3. All City pools are unheated because of the high cost of that service level of operation. This makes the scheduling of aquatics activities reliant upon weather conditions (ambient temperature affects water temperature, which affects participation and service provision).
4. The City of San Bernardino works closely with the American Red Cross in offering aquatics training and certification classes to the community; we are the only city in the Inland Empire to offer these classes/certifications in an effort to stay close to the job applicant pool.
5. A lack of qualified lifeguard applicants on a nation-wide scale, the nature of seasonal work schedules, and low wages challenge the process of maintaining required lifeguard services levels.
6. Grant funding for this type of service area is limited; grants are supplemental and “core” services are rarely funded by these sources.
7. The City provides funds for the Boys & Girls Club of San Bernardino to operate a summer season aquatics programs at the 9<sup>th</sup> Street Pool (Boys & Girls Club Pool) and Delmann Heights Pool per agreement, following the same operational hours as the City.
8. A lack of advertising funds affects the number of service recipients. (A direct mailed professional Quarterly Brochure of Activities is no longer provided to City residents.)

9. There is a disconnect that exists between the location of City aquatics facilities in relationship to family residences. Current pools will need new water spray features and other amenities (climbing walls, floating attractions, waterslides, diving boards) if they are to become family “destinations”.

***Program Summary***

Program Code:	0070
Program Purpose:	To provide athletics experiences in leisure and competition (leagues, tournaments, classes, workshops) levels for community residents and families of all ages in order to increase sports skills, develop physical fitness and mental health, provide opportunities for socialization and leadership development, and enhance community involvement.
Strategic Goals Addressed:	Enhance of Vibrant Quality of Life

***5 – Year Program Goals***

1. Foster joint provision of sports activities through cooperative agreements between school, county, church, community groups, and other service partners (service groups, non-profits).
2. Coordinate training of staff, sports officials, and parent volunteer coaches to promote individual sport skill sets, sportsmanship, safety, adherence to policies and procedures (program and facility), and philosophies of how to coach and communicate with sports players of various ages, stages of physical development, cultural backgrounds, and economic status.
3. Encourage a high degree of professionalism in customer service (greetings, grievance management, scheduling of services to meet needs) and maintenance of clean and safe sports facilities (ball fields, courts, pools, play equipment, concessions buildings/restroom lockers, score booths).
4. Hire a full-time Sports Coordinator to oversee all sports programs and facilitate greater program offerings and cost recovery.

### ***FY 2010/11 Program Objectives***

---

1. Provide the following year-round Adult Team Sports Leagues: Men's Soccer (24 teams, one yearly season mid-Feb – Thanksgiving), Men's & Coed Softball (4 seasons annually, an average of 24 teams per season and one Delmann Heights Summer Softball League with 6 teams), Men's Baseball (2 seasons, Summer & Fall, 12 teams per season), Men's Flag Football (1 Fall season, 6 teams), Coed Volleyball (1 Spring or Fall season with 4 teams), and Men's and/or Senior Basketball (Spring or Fall season with 6 teams).
2. Provide the following year-round Youth Sports Activities: Basketball (Spring and Fall seasons), Track & Field (Spring & Summer), Girls Volleyball (Fall), and Flag Football (Fall). Provide the following year-round PeeWee Sports Activities: Basketball (Winter/Spring, Fall), Soccer (Spring), and T-Ball (Spring/Summer).
3. Introduce three new Adult Individual Sports Classes year-round in golf, tennis, and racquetball.
4. Manage the City contract to provide Men's Baseball and Men's/Coed Softball and the volunteer coordination of Men's Soccer and Delmann Heights Summer Softball League.
5. Manage two Tennis Court Lease Agreements with V.J. Scatliffe (Perris Hill Tennis Courts) and Ed Quielhe Blair Park Tennis Courts).
6. Coordinate the annual "Run The Route" – Mayor's Run on Route 66 (5K, 10K, and Kid's Runs and Health & Safety Fair) as the Committee Chair/Race Director.
7. Provide sports leagues for Adults and PeeWee/Youth/Teen ages in volleyball, basketball, t-ball/baseball, softball, soccer, flag football and other team sports of community interest or other target groups.

### ***Ongoing Program Objectives***

---

1. Improve direct supervision/management of all sports resources.
2. Maintain the highest standards of safety and orderliness.
3. Maintain a higher standard of care and maintenance for facilities serving City sports activities in the areas of turf and infield maintenance, cleanliness of floors and toiletries, graffiti abatement, and quick response for repairs to all facilities and equipment (Fiscalini Field; Perris Hill, Blair, and Hernandez Tennis Courts; Nunez Sports Field; Encanto Ball Fields; Delmann Heights Ball Field, and Norton and Hernandez Gymnasiums. As measured through periodic participant satisfaction surveys, with an 85% or better "good" to "excellent" rating.

- Maintain same level of team participation in all sports activities. (Stabilize drop in team registrations due to poor economy.)

***Performance Measures***

	2007/08 Actual	2008/09 Actual	2009/10 Target	2009/10 Mid-Year	2010/11 Target
# Adult Sports Teams/participants Served	179	110	85	63	102/1200
# Youth Sports Teams/participants Served	NA	40	45	23	45/500
# Volunteer Youth Sports Coach Hours	NA	500	600	300	600
# Mayor's Run Participants	348	388	500	0	600

***Performance Measure: Notes***

- Adult sports teams are registered by full team rosters. Direct program costs are recovered through user fees. Only City-owned facilities are utilized by adult sports programs.
- PeeWee, Youth, and Teen sports activities are registered individually and/or through teams created from involvement in community center activities and their promotion. User fees charged to these participants do not cover full costs to participate in an effort to make programs available to a larger community of youth participants. City and School facilities are utilized.
- The Parks Maintenance Division and Facilities Department are instrumental in the continuance of Adult Sports Programs, and their funding is inadequate to support the growth of adult sport participation. Minimal safety standards are being met (turf and infield maintenance, pest control, floor care, sports lighting, custodial, security).
- The Service Provider Agreement for Men's Baseball has been reduced to operating June through October (instead of year-round), reducing the number of teams that can be served and the revenue produced.
- Community Center Staff currently doubles as operating personnel for PeeWee and Youth Sports programs. Sports Staff coordinates the annual All-Comers Youth Track Meet (ages 9-14 years) and the Hershey State Youth Track Meet (Games), hosted by the City of San Bernardino for all of the Southern California Region.

***Performance Measure: Notes***

1. Weather and extended repairs to the in-door swimming pool can be critical factors in the attendance of the Twinges in the Hinges Aquatic Exercise program. New Federal-mandated anti-entrapment regulations may interrupt pool and spa use this coming budget year, which is a critical facility for many center users.
2. The City of San Bernardino is a partner and lead agency in the Joint Powers Authority that owns the CID. Other partners include the County of San Bernardino and the San Bernardino City Unified School District.
3. The CID has sponsored several annual fundraisers and special events including: the Harvest Fair, Grapes & Gourmet, A Wine & Food Festival fundraiser, the annual Open House & Awards Reception, Family Day and the C.I.D. Walkathon Fundraiser.
4. The Friends of CID provide a subsidy of approximately \$100,000 that allows the doors to remain open at this unique and critical facility. That represents a 43% subsidy that would normally be part of the City's general fund.

**Parks Department**  
**Program: Parks Maintenance**

***Program Summary***

Program Code:	0072
Program Purpose:	To preserve the City’s investment in parks, trees and beautification to provide safe, aesthetically pleasing outdoor recreational facilities and open space landscaping which are maintained at the most effective cost per acre.
Strategic Goals Addressed:	Beautification

***5 – Year Program Goals***

1. Promote downtown beautification through enhanced maintenance of downtown parks, easements and greenbelts.
  - a. Strategy A: Provide a higher level of maintenance of the downtown parks consistent with established levels of service standards.
2. Ensure parks and open space are professionally maintained for safety, aesthetics, recreation and sustainability.
  - a. Strategy A: Maintain facilities according to established level of service standards for proper care, safety and usage.
  - b. Strategy B: Implement advanced technology where appropriate to provide more efficient or effective services.
  - c. Strategy C: Implement programs and projects to reduce green waste, water use and recycling.
  - d. Strategy D: Upgrade irrigation systems to provide appropriate amount and distribution of water for plant growth.
3. Build environmental stewardship through volunteer programs and public education to promote benefits of parks and open space.
  - a. Strategy A: Increase the number of parks with formal Adopt-A-Park agreements in place.
4. Reinstate park maintenance staffing back to industry standard level of one full time worker per 10 acres of park space. Provide complementing maintenance and operations supplies funding at the same standard so staff can address deferred and routine maintenance.
5. Improve the quality and distribution of the City’s trees (both public and private) to optimize environmental, green objectives, economic, habitat and social benefits to the City and residents.
6. Establish a 7-year trimming cycle for all 52,000 City maintained street trees.

7. Qualify for Tree City USA certification.
8. Implement computer automated work order system for assigning maintenance requests and tracking completion and resource consumption (Iworqs, ParksScan)

### ***FY 2010/11 Program Objectives***

---

1. Continue to meet service delivery participation standards in senior center(s) activities while promoting new programs through marketing endeavors that encourage greater Baby Boomer attendance.
2. Ensure that both 5<sup>th</sup> Street and Perris Hill Senior Centers, are open and properly staffed during regular business hours, Monday through Thursday, as well as during special events, and rental usage after business hours.
3. Develop a marketing plan to increase the number of attendees at senior sites' special events, programs, and classes.
4. Provide facility rental accommodations to the public.
5. Continue to give administrative support and supervision to the following valuable senior grant-funded programs: Senior Nutrition Program, Senior Companion Program and the Retired and Senior Volunteer Program.

### ***Ongoing Program Objectives***

---

1. Provide programs in education, creative arts, recreation, advocacy, leadership development, employment, health, nutrition and other supportive senior services.
2. Ensure that both the 5<sup>th</sup> Street and Perris Hill Senior Centers are routinely open and maintained for the benefit of the City's senior population 60 years and better.
3. Ensure proper scheduling and staffing of employees for senior classes, programs, activities, special events, and facility rentals at both the Perris Hill and 5<sup>th</sup> Street Senior Center sites.
4. Maintain a functioning Senior Advisory Board/Senior Affairs Commission

***Performance Measure: Notes***

1. Two surveys will be conducted early in FY 2010/2011 to determine customer satisfaction with current activities and delivery systems and to determine future service needs and desires: Information and Assistance Satisfaction Survey and a Senior Centers Participant Survey.
2. Staff training will be a top priority to ensure better customer service, senior programs, facility rentals, and administrative procedures. Training will be given through a combination of in-house meetings, departmental training, and local senior service industry conferences and workshops..

3. The senior grant-funded programs are supported by the General Fund through many indirect in-kind means. These grant programs contribute valuable services that enrich the seniors' quality of life. Senior Services will continue to submit for grants to support key senior services, as it has done for over 35 years. The Senior Nutrition Program, the Senior Companion Program, and the Retired and Senior Volunteer Program all have played a major role in senior service delivery.
  
4. The Senior Nutrition Program currently feeds approximately 50,000 senior meals per year, the Senior Companion Program provides approximately 4,320 hours of service each month to 275 clients, and the Retired and Senior Volunteer Program currently has 355 active volunteers who work approximately 5,598.50 hours each month at a monetary value of \$113,369.63. (The \$20.25 rate is determined by the 2008 Independent Sector / Research – The Value of Volunteer Time Report.) These grant programs will continue to receive approximately \$618,000 or more in grant funding each year. It is a goal of the Senior Nutrition Program to have the General Fund subsidize a larger share of the program, making a commitment to it as an essential core community service. Staff would like to provide healthier menu in the selection of quality fruits, vegetables, grains, and meats for the senior participant.

### ***Business Plan – Overview***

---

<b>Mission Statement:</b>	To provide exceptional accommodations for families seeking permanent grave sites for expired friends and loved ones.
---------------------------	--

#### ***About The Department***

---

Established in 1853, the 26 acre Pioneer Memorial Cemetery provides resting places for some of San Bernardino's most historical residence. Comprehensive grounds maintenance consisting of mowing, trimming, setting of grave memorials, tree trimming, fertilization, irrigation and general beautification are included in the scope of services. Approximately 100 interments are performed annually, while a "pre-need" program is also available for all city customers. The city acquired the original 5-acre parcel in 1857 and continued acquiring land into the 1950's.

#### ***Top Accomplishments for FY 2009/10***

---

1. Data entry continuing into software program.
2. Performed approximately 100 interments.
3. Cal State University History Club uncovered monuments in old section.
4. Worked with members of the community in genealogical processes and updated records to reflect their findings.

#### ***Major Issues for FY 2010/11***

---

1. Irrigation system replacement is needed as all watering is done manually via quick coupler by staff daily.
2. Staff currently borrows much of the equipment needed to perform burials and disinterment services from neighboring departments.
3. Budget does not provide enough staffing to properly maintain the grounds and fully perform all services needed
4. Due to the age of the cemetery, there is a need to map all graves, especially in older sections, for permanent historical record.
5. Transition of active cemetery operations to endowment care as capacity is limited.

***Program Summary***

Program Code:	0001
Program Purpose:	To provide final resting places for families and individuals in order to memorialize their lives and record the genealogy of San Bernardino residents.
Strategic Goals Addressed:	Responsive Government

***5 – Year Program Goals***

1. Technology upgrades: advanced cemetery software to integrate with city finance applications for AR and AP.
2. Irrigation replacement: upgrade to modernized automated smart irrigation system
3. Staffing increases for ground maintenance and office support or sale of cemetery or its operations to private company to provide this service.
4. Additional fencing to cover all borders of the site for privacy and security
5. Acquiring of equipment for cemetery use exclusively: back hoe, vault lowering system, etc.
6. Mapping of cemetery
7. Data entry of all burial records
8. As the Cemetery is near full capacity, the need to seek new customers has decreased, however the need for addressing deferred maintenance and family accommodation for more contemporary cemetery grounds has increased. In order to utilize the Cemetery endowment, the site needs to be declared full so finances from the endowment can accessed to accomplish 5 year goals and current objectives.

## ***Parks Department - Stadium***

### ***Business Plan – Overview***

---

<b>Mission Statement:</b>	To provide a safe and clean environment for stadium operators to conduct business and serve patrons of the baseball club.
---------------------------	---

#### ***About The Department***

Under the direction of the Director of Parks, Recreation, and Community Services, the Stadium section is currently responsible for landscape maintenance, coordinating building and equipment maintenance and facilities-related functions such as bleacher repair, debris removal, general cleaning and stocking of restrooms for non-baseball related activities. The maintenance of the baseball field is the responsibility of the 66'ers Baseball Club.

#### ***Top Accomplishments for FY 2009/10***

---

1. Replaced and repaired stadium seating as needed
2. Maintained trash collection and refuse coordination via roll off bins
3. Repaired and replaced irrigation heads and valves as needed
4. Repaired and replaced "batters eye" and outfield fence

#### ***Major Issues for FY 2010/11***

---

1. No salaries have been allocated in this fund historically requiring personnel from general park maintenance to accomplish improvements from the general fund cost center.
2. Not enough personnel to complete all maintenance needs in a timely manner, resulting in an over dependence on the EDA Community Beautification Services program."
3. Insufficient funding to complete necessary maintenance.

***Program Summary***

Program Code:	0001
Program Purpose:	To provide basic maintenance for stadium operators in order to ensure a safe and clean environment for patrons and users.
Strategic Goals Addressed:	Enhance our Vibrant Quality of Life

***5 – Year Program Goals***

1. Relinquish full maintenance responsibility to the operator or fully adopt contract oversight and negotiations from the Economic Development Agency to allow Department staff the ability to better fund maintenance projects on site.
2. Commandeer from the operator grounds maintenance equipment belonging to the city for use on site and at other city facilities.

***Performance Measure: Notes***

1. No targets quantities/values listed for performance measure as goals are performed upon request and when need arises from the operator. As a more contemporary facility, there are no deferred maintenance concerns and preventative practices are minimal.
2. Per the operator agreement, the department is not responsible for collecting lease payments from the stadium operator and instead is to be facilitated by the EDA. Fees collected via this agency should be redirected to the department as 100% cost recovery reimbursement for completed maintenance on the year.

## ***Parks Department – Soccer Complex***

### ***Business Plan – Overview***

---

<b>Mission Statement:</b>	The San Bernardino Soccer Complex promotes economic stimulation and revenue generation for the City and its businesses by providing sports tourism in soccer and other major athletic competitions serving Southern California.
---------------------------	---

#### ***About The Department***

The San Bernardino Soccer Complex features 17 tournament quality fields and plays host to 48 weekend events per year in addition to league play. Currently the complex is managed by professional City Staff. As a major attraction to the community, the Complex generates direct and indirect revenue that covers the cost of maintenance and operations and contributes to the economic viability of the City.

#### ***Top Accomplishments for FY 2009/10***

---

1. Increased field rental for weekend tournaments by 33% with more than 6 new weekend rentals: State Cup, Adult State Cup, Mtn View Classic, SCS Bayern International, Verizon Wireless Copa Alianza and XK San Diego.
2. Completed a renovation project including installing a “new” well pump, paint wash station and materials storage stalls.
3. Secured sponsorship for marketing and publicity: tradeshow attendance at Soccer Nation Expo, Sports Destination Magazine, Cal South Magazine and CSL Tournament Book.
4. Awarded grant funding in the amount of \$20,000 from the US Soccer Foundation for the purchase of an aerator.
5. Hosted the 1<sup>st</sup> Annual Independence Cup in July and solicited sponsors for the event.
6. Developed an Operations Manual.

#### ***Major Issues for FY 2010/11***

---

1. Security lighting is minimal and does not illuminate the east-end where field maintenance equipment is stored. Funding is needed to repair existing lighting along the east-end of the complex for security.
2. Funding needed to repair existing in-ground exit gate system. Half the teeth are broken or missing. Warning signs do not light up in the evenings.

3. In patron parking lot there are numerous holes in the pavement that could pose liability exposure to the City.
4. Site grading and drainage is poor, requiring additional time for fields to dry after inclement weather. Soil composition has a heavy clay base with high salt content versus sand base with high nitrate content, making it difficult to mitigate compaction and sustained turf growth in certain areas.

***FY 2010/11 Program Objectives***

1. To increase night use during the Spring and Summer months utilizing the new fields at Speicher Park.
2. To increase tournament play in lieu of league play as a way to bring more revenue into the City.
3. Conduct a fee survey for similar sized facilities in and around SB County.
4. Based upon findings, establish a new fee schedule for field rentals at the SC. Submit for Council approval.
5. Revise the reservation form/policy and have it approved by City Attorney

6. Replace marquee sign at main entrance to reflect city/department management.
7. Install signage on 4 blank marquees (2 @south end & 2 @ north end) to include a map of City, accommodations, restaurants, local entertainment, map of fields, etc.

***Ongoing Program Objectives***

---

1. Re-stripe parking lot and handicap zones.
2. Repair stucco and paint North & South building exteriors.
3. Re-welding of goals.
4. Increase marketing opportunities through parking ticket sponsors, banners and flags.
5. Repair parking lot lighting.
6. Repair RV electrical box.
7. Identify and record indicators of economic growth as a result of soccer complex reservations
8. The city shall establish a method of accounting for net revenue annually for the purpose of redistributing into the soccer fund from year to year. Net proceeds from previous years has not been reflected in the following fiscal year expenditure allocation, thus limited the ability for staff to market and improve the asset as a key economic contributor to the city.
