Program Overview

About the Program

As part of the American Rescue Plan Act (ARPA) initiative, the City of San Bernardino (the City) has partnered with the Inland Empire Small Business Development Center (SBDC) to offer the Small Business Grant Program, Round Two (Grant Program). The Grant Program will provide free consultations and funding to small businesses needing financial assistance in overcoming the loss of revenue due to the COVID-19 pandemic. All eligible businesses are invited to apply. Businesses which have previously received alternative sources of funding such as the Economic Injury Disaster Loan (EIDL), Paycheck Protection Program (PPP) Loan, State, or County of San Bernardino grants are eligible to apply. Businesses that received grant funding during the first round of the San Bernardino ARPA-Funded grant program are **not** eligible to apply. The program is based on the availability of funds, program guidelines, and submission of all required information and supporting documentation. Small businesses, including home-based businesses, with a maximum of five hundred (500) employees (full and part-time) may be eligible to receive a working capital grant after attending a free, mandatory, one-on-one consulting session with SBDC. The grant may be used for working capital to cover the day-to-day business operating expenses such as rent/lease payments, mortgage payments, payroll and benefit costs, utility expenses, inventory, Personal Protection Equipment (PPE) or other similar expenses that occur in the ordinary course of operations.

Funding Availability

In May 2021, the U.S. Department of Treasury allocated funds from the American Rescue Plan Act of 2021 (ARPA) to the City of San Bernardino for COVID-19 response, relief, and reinvestment. The City Council allocated up to three million dollars (\$3,000,000) for the Small Business & Non-Profit Training & Grant Program. In the first round of funding, \$2,575,000 was successfully issued in grants to 87 local small businesses and 18 non-profit organizations. The \$425,000 in remaining funds will be used for this Round Two Grant Program for small businesses. These funds are to be used to mitigate financial hardship caused by declines in revenues due to the COVID-19 public health emergency.

The City's Economic Development Department will be responsible for oversight of the Grant Program and disbursement of funds will take place through the City's Finance Department. The City's Program Partner, the SBDC, will be responsible for program administration, application processing, one-on-one consulting, and for review and approval of financial and business documentation for disbursement approval. City staff are obligated to fulfill the terms and conditions of the funds as established by the City Council, these program guidelines, and Federal, State, and local rules and regulations.

Grant Review and Approval Process

Review

The application will be reviewed by the SBDC to determine application completeness and preliminary eligibility. **The application must be complete to be considered eligible.**

First-come, First-serve

The City of San Bernardino is expecting the Small Business Grant Program, Round Two to have a significant number of applications. Completion of the mandatory consultation and completed submission of requested documentation constitutes the applicant's priority in being selected to receive funding. Applicants will not be added to the first-come, first-serve queue until all requirements are completed.

Applicants will receive directions on how to schedule a one-on-one consultation and how to submit required documentation. It is the responsibility of the applicant to ensure required steps are completed in order to remain eligible for funding.

Consultations and document submission **must be completed within thirty (30) days** of the initial application submission date through the SBDC portal. Should an applicant not meet application requirements within 30 days of their application submission, they will be dropped from the review process. If an applicant is dropped from the process for not adhering to this deadline requirement, they are eligible to submit an application again under these same guidelines to restart the process.

Verification and Eligibility Determination

The SBDC shall request the applicant submit all required documentation for review and verification for grant approval. SBDC will assign a consultant to work with each individual applicant to assist with completing all required documentation. Applicant's documentation will be submitted directly to SBDC on a secured site. SBDC will perform verification of applicant's documentation in accordance with these guideline requirements. If documents are not submitted in a timely manner, the applicant will be dropped from the process.

Grant Disbursement

The application will be open on a rolling basis until all funds have been disbursed to depletion. Only one grant will be issued per applicant, per person, per business, per entity, whichever is the lesser. No business that received funding in the first round ARPA-funded grant program is eligible. A business cannot receive funding from both the round-two grant and a façade improvement grant from the ARPA-funded program. All grant funds must be dispersed by the deadline given in the ARPA guidelines. From the time the award decision is approved and an applicant is notified, the City has ninety (90) business days to complete payment through the designated payment method. Awardees will be expected to pick up their grant check in person.

Grant Report

Eligible expenses are considered necessary expenditures that provide economic support in connection with the COVID-19 public health emergency. In the event a business does not expend the entire grant amount, the business may be required to return the remaining balance.

The business recipient shall keep documentation evidencing use of the Grant Funds. The City may request to evaluate the business's compliance with the Grant program. If it is determined the business did not expend the funds consistent with the Eligible Activities or as described in the Spending Plan, it may constitute an Event of Default under the Grant Agreement.

Post Grant Follow Up

The SBDC will continue to work with each grantee throughout the next twelve (12) months. If contacted by the City or SBDC, all awardees will be required to update the City on their business and if additional employees have been hired or employees retained. A twelve-month report may be created by the SBDC and the City of San Bernardino to document the success of the program. By acceptance of the grant, the business agrees to comply with City information requests that may include use of photos or business logos.

Program Complaint and Appeal Process

Complaints concerning the Small Business Grant Program should be made to the City of San Bernardino Economic Development Department. If unresolved in this manner, the complaint or appeal shall be made in writing and filed with the City Manager's Office.
